EDITOR'S CORNER

For several months now there has been talk of getting the message out to the groups in ever more ways that might hopefully communicate the need for a decent operating budget for the Intergroup Office. Many fine suggestions have come along the lines of communication in the line of this effort, and all have received fine words of commendation from those concerned people who have been in attendance at Intergroup Council meetings. Some groups have responded to many of those ideas with action, which has led to some growth in their contributions, but the over-all picture has still remained a desparate one. WHILE IN NO WAY CRITICIZING all that has come to pass to this time, there still seems to this editor to be something lacking. It is fairly obvious by the results so far that something more is needed. Therefore, one more suggestion should not be amiss; and this will be the means of making that suggestion. Many of the suggestions entertained so far have one common thread, and it is to this that the suggestion is addressed. The common thread spoken of is that the suggestions all focus on what they ought to do, and the suggestion is simply that we take those suggestions and simply turn them about to say "WHAT CAN WE DO?"

The time is now long past for finding out what THEY will do, and that leaves us face to face with our own responsibility! If the Intergroup Office is to continue to serve the area that it has been serving for very long, it is going to have to HAVE some means of meeting its obligations; those for a telephone; those for an answering service to answer the phone when no one is in the office; those that are entailed in printing and mailing these MOUNTAIN DOIN'S; those that are entailed in printing the new where and when cards(due any day now); and this is just the tip of the mountain, these are the services that affect each one of us most directly. DO WE WANT THIS TO CONTINUE???
